FRANKLIN & ABBEVILLE RAILWAY

History: Incorporated under the laws of Louisiana, Oct., 1897. Reorganized in March, 1904. The Morgan's Louisiana & Texas R.R. & S.S. Co., constructed the extension from David's Junction to Milton, La., 17.40 miles, and turned it over to this company for operation, July 1, 1910, the company agreeing to pay the Morgan's Louisiana & Texas R.R. & S.S. Co. 50% of gross revenue of extension for a period of fifteen years from July 1, 1910, in lieu of interest on amount expended. The M. La. & Tex. R.R. & S.S. Co. has an option at the expiration of fifteen years to take up track or renew agreement for a further term of 15 years. In case neither option is exercised, it shall then sell the extension of the Franklin & Abbeville Ry. at not exceeding original cost plus cost of additions and betterments. The right of way was acquired by the Franklin & Abbeville Railway and will remain property of company.

HAMPDEN RAILROAD CORPORATION

History: Incorporated under the laws of Massachusetts in July, 1910. Owns road from Boston & Albany R.R., Athol Junction, about two miles from Springfield, Mass., to a connection with the Central Mass. division of the Boston & Maine R.R. at a point within two miles of Bondsville, a total of 14.82 miles. This road when completed was to have been leased to the Boston & Maine R.R. for 99 years at a rental equal to interest on debts of the company and 5% on the stock. In June, 1914, the Mass. legislature voted down the bill providing for the lease of the road to the Boston & Maine. Under act of Jan., 1915, the B. & M. is authorized to purchase the road subject to approval of Mass. Pub. Service Commission. Road is not being operated.

Governor Walsh has allowed to become law without his signature, the bill passed by the Mass. legislature extending to July 1, 1918, the time within which the company shall locate and complete its proposed lines to Holyoke and Chicopee Falls, and open them for use.

KALAMAZOO, LAKE SHORE & CHICAGO RAILWAY

History: Incorporated under the laws of Michigan, August 12, 1905. On April 16, 1907, the line from Lawton to South Haven, known as the South Haven Branch of the Pere Marquette R.R. Co., was leased to this company, for 25 years from April 5, 1907, at an annual rental of $18,000 per annum for the first five years, and $20,000 per annum for the balance of term, the lessee paying taxes and maintenance.

On June 1, 1911, the company leased its property for five years to the Michigan United Railways Co. On December 30, 1911, a 999-year lease was signed by the Michigan United Traction Co., to take over and operate the lines of the Michigan United Railways Co., also a transfer of the lease of the Kalamazoo, Lake Shore & Chicago Ry., to the traction company as of January 1, 1912. The line of road leased from the Pere Marquette R.R. Co., has been assumed by the Michigan United Traction Co. Because of the fact that the K. L. S. & C. is operated by steam power, the earnings are kept separate from the Michigan United Traction Co.

Location: Kalamazoo to Lawton, Mich., 16.69 miles; Toquin to Paw Paw, 4.4 miles. Leased, Lawton to So. Haven, Mich., 33.82 miles. Line from Toquin to Paw Paw abandoned. Total operated, 50.51 miles.

History: Incorporated in Kansas July 6, 1914, as successor to the Kansas City, Mexico & Orient Railway Co.; sold under foreclosure. Old company was incorporated in Kansas in 1900 and operated in the Republic of Mexico under the Kansas charter, which was legalized by the Mexican Government.

Location: The lines of the company are still under construction, and when completed will form a continuous line from Kansas City, Mo., to Topolobampo Bay, Mex., on the Pacific Coast, a distance of 1,659 miles. Total operated mileage on June 30, 1916, 964.07 miles as follows: K. C. M. & O. R.R. (lines in Kansas and Oklahoma), Wichita, Kan., to Foley, Okla., 177.97 miles; Ewing, Okla., to Okla.-Tex. State line, 81.46; trackage rights, 12.73 miles; total, 272.16 miles. K. C. M. & O. Ry. of Texas: State line to Alpine, Tex., 464.08 miles; spur tracks, 1.63 miles. K. C. M. & O. R.R. lines in Mexico: Marquez to Tobalaopa, 86.77 miles; Minaca to Sanchez, 74.28 miles; El Fuerte to Tapolobampo, 62.23 miles; Mochis to Mochis Jct., 2.92 miles. In addition to the main lines as above, the company has projected a branch from San Angelo southward to Del Rio, Tex., where it will make connection with Mexican lines for Mexico City, and with American lines for Galveston, Houston, and other Gulf ports. On the Pacific Coast an arrangement will be made with the Hamburg-American Steamship Co. for trans-Pacific connections. The Kansas City Outer Belt & Electric R.R., constructing a double track belt line around Kansas City, is controlled by the same interests, and when completed will afford an entrance into Kansas City for the Kansas City, Mexico & Orient Ry., and connection with the various other roads entering the city.

Location of Main Line: In Kansas, 72.68 miles; in Oklahoma, 186.75 miles; in Texas, 464.08 miles; in Mexico, 226.20 miles; total, 949.71 miles.

NEW ORLEANS TERMINAL COMPANY

History: Incorporated December 31, 1902, in Louisiana, as the New Orleans & San Francisco R.R. Name changed June 30, 1903.

Location: Owns a belt line in New Orleans, and extensive terminal properties in New Orleans and Port Chalmette, with 26.08 miles of main track and 48.26 miles of yards and sidings, which were leased to the St. Louis & San Francisco R.R. and the Southern Ry. to July 1, 2002, for a rental sufficient to pay all expenses and interest on the bonds. In 1913, the St. Louis & San Francisco defaulted on its rental payment and its interest in the stock was forfeited to the Southern Ry. Under this contract the New Orleans Terminal Co. handles the business in and about New Orleans of the Southern Ry. Co., the Mobile & Ohio and the Queen & Crescent Lines. The New Orleans Great Northern and the Louisiana Railway & Navigation Co. use the passenger facilities under terminable contracts, and the Illinois Central Railroad, the Yazoo & Mississippi Valley Railroad, the Morgan's Louisiana & Texas Railroad and Steamship Co. and the Louisville & Nashville Railroad have joint trackage privileges between Shrewsbury and the American Sugar Refinery. Controlled by Southern Ry. through ownership of capital stock. Owns 15 locomotives and 11 cars.

Bond Record: $14,000,000 New Orleans Terminal Co. first mortgage gold 4s. Dated July 1, 1903; due July 1, 1953. Interest paid Jan. and July 1, at Guaranty Trust Co., New York. Coupon, $1,000. Registerable as to principal. Registered, $1,000 and $10,000. Interchangeable. Guar. jointly and severally as to prin. and int. by the St. Louis & San Francisco R.R. Co., and the Southern Ry. Co. by endorsement. First lien on the entire property of the company as follows: About 5,500 acres of land with frontage of about 2½ miles on the Mississippi River, located about 6 miles below New Orleans, and including the Port Chalmette freight terminals and a grain elevator with capacity for handling 500,000 bushels of grain; 49 consecutive blocks in the centre of New Orleans, on which are a large modern passenger station and numerous freight houses. The company owns the right-of-way over this property. 100 acres for additional outside freight yards. A belt line railroad of about 26 miles in length, with a total trackage of about 78 miles, extending from Port Chalmette terminals on the south to the terminal properties in the centre of the city and connecting with all railroads entering New Orleans. About 10 acres of land in the city for additional passenger terminals when required. Under the lease the Terminal Company handles the business of the St. Louis & San Francisco R.R. and the Southern Ry. Co. (including the Mobile & Ohio and the Queen & Crescent Lines). Listed on London Stock Exchange. Interest paid without deduction for normal income tax. Rating, Ba.

Suit: In July, 1913, the St. Louis & San Francisco defaulted on the payment of one-half of the semi-annual interest on these bonds, and the Southern Railway thereupon declared the St. Louis & San Francisco Ry.'s half-interest as forfeited. Suit was then brought by the receivers of the latter property, but was lost.

Capital Stock: Authorized and outstanding, $2,000,000. Par, $100. Southern Ry. owns $1,997,000.

THE ANN ARBOR RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

History: Successor through reorganization in 1895 of Toledo, Ann Arbor & North Michigan Railway.

Control: In June, 1905, the Detroit, Toledo & Ironton Railway acquired a controlling interest in the Ann Arbor R.R., through purchase of $3,001,000 preferred and $2,190,000 common, but in November, 1910, as a result of the bankruptcy of the Detroit, Toledo & Ironton, these securities, together with $5,000,000 of the latter road's General Lien 4% bonds, were sold at auction for $2,500,000, and acquired by a syndicate headed by Newman Erb. In January, 1911, a holding corporation, known as the Ann Arbor Company, was formed under Delaware laws with an authorized capital of $4,000,000 preferred and $3,250,000 common, to acquire the stock of the Ann Arbor R.R., exchanging share for share. At last reports, $3,001,000 preferred and $2,190,000 common had been so acquired.

Location: Line of road owned, Toledo, O., to Frankfort, Mich., 291.9 miles; trackage rights over Lake Shore & Michigan Southern, Toledo to Alexis, 8.9 miles. Total mileage on which earnings apply, 291.9 miles. Company also operates car ferries on Lake Michigan in connection with its rail lines, extending from Frankfort to Manitowoc, Kewaunee, Menominee, and Manistique, making connections with Chicago, Milwaukee & St. Paul, Chicago & Northwestern, and Canadian Pacific systems. At Manistique connection is made with the Manistique & Lake Superior R.R., which operates a line from Manistique on Lake Michigan to Shingleton and Doty near Lake Superior, forty-five miles in all. The entire capital stock of the latter was acquired by the Ann Arbor R.R. in April, 1911, but the road is separately operated. The operated lines of the Ann Arbor R.R. are entirely in the State of Michigan. Population of Michigan in 1890, 2,093,889; in 1900, 2,420,982; in 1910, 2,810,173.

Management: OFFICERS: Newman Erb, Pres.; W. M. Wadden, Vice-Pres. and Treas.; J. S. Bache, Vice-Pres.; A. W. Towsley, Vice-Pres. and Mgr.; H. B. Blanchard, Sec. DIRECTORS: A. W. Yard tracks and sidings, 112.67 miles.

In addition to above equipment, company owns four car ferries which operate on Lake Michigan. It is also now operating motor-cars for local passenger traffic, this new service having been introduced in May, 1911. Above density and traffic figures do not cover the motor-car operation until 1913. A portion of above equipment is covered by equipment trusts.

Comment: During the year ended June 30, 1916, the Ann Arbor Railroad reported an unusual increase both in its freight density and average train load. Passenger density was also much greater than in the previous year. Although average passenger and freight rates declined, the train mile earnings showed substantial improvement.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $1,340,658; credit balance transferred from income, $300,060; profit on road and equipment sold, $7,146; unrefundable overcharges, $10,000; miscellaneous credits, $7,837; total, $1,665,701. Contra: Debt discount extinguished through surplus, $36,717; loss on retired road and equipment, $123,617; miscellaneous debits, $11,293; credit balance at end of year, $1,494,075; total, $1,665,701.

Comment: The year ended June 30, 1916, was the best ever reported by the Ann Arbor Railroad. Both gross and net operating figures reached new high totals, and although fixed charges increased slightly, the final surplus carried over was three times as great as that of the previous year, and equalled 7½% on the outstanding preferred stock.

Public Utilities

If you are interested in any way in the securities of Gas, Electric Light, Electric Traction, Telephone and Telegraph or Power Companies, the "Public Utilities and Industrials" Edition of "MOODY'S ANALYSES OF INVESTMENTS" will prove indispensable. This whole field is covered in the same comprehensive and accurate way that Steam Railroads are covered in the Railroad Edition. In fact, the two volumes constitute a complete Service for the Banker and Investor. Separately, the editions sell at $15 each; in combination, they are supplied at $25, when ordered in advance.

Note: The "property investment" includes $1,500,000 of the company's own bonds (which, however, are pledged for $750,000 of notes); and the stock interests in the Manistique & Lake Superior R.R. (carried at a nominal sum) and stock of the Menominee & St. Paul R.R. Working assets include the cash items.

Comment: There was a further moderate decrease in the outstanding funded debt of the Ann Arbor Railroad during the fiscal year ended June 30, 1916. The property is rather heavily capitalized, but in recent years has been reporting a very fair net income on net capital. During the past year this percentage reached 5.3%.

Capital Stock: Authorized and issued, $250,000. Par, $100. All owned by Ann Arbor Railroad Company.

DENVER & SALT LAKE RAILROAD

History: Incorporated under the laws of Colorado, Dec. 13, 1912, and on May 1, 1913, acquired the properties of the Denver, Northwestern & Pacific Ry. The company owns the entire capital stock of the Northwestern Terminal Ry., which had been leased for 99 years to the old Denver, Northwestern & Pacific.

Location: Line of road: Utah June. to Craig, Colo., 252.35 miles. Leased Denver to Utah June., Colo., 3.11 miles. Sidings owned and leased, 56.09 miles.

Default: On May 1, 1916, the first mortgage interest was defaulted and a reorganization plan was in preparation providing for the building of the long proposed tunnel through the Continental Divide, this outlet being necessary to the successful operation of the property. Report by expert McKenna advised construction of new 17-mile cutoff, including the 4-mile tunnel, at a cost of $2,952,000 and a total expenditure of $5,266,821 for all purposes to make possible economical operations. If this is done in the next two years, the following year, it is estimated, should show with a coal traffic of 1,026,000 tons gross earnings of $2,225,697 and net income, after taxes, of $824,000, increasing to $957,000 and $1,104,000 in the next two years.

Management: OFFICERS: L. C. Phipps, Chairman; Chas. Boettcher, Pres.; W. E. Morse, Vice-Pres. and Gen. Mgr.; Wm. Wadden, Vice-Pres.; W. E. Pearson, Treas.; Gerald Hughes, Sec. DIRECTORS: W. E. Pearson, F. G. Moffat, Gerald Hughes, Geo. H. Burr, Lawrence C. Phipps, Chas. H. Boetteher, Wm. Wadden. Annual meeting, first Monday in January. OFFICES: 115 Broadway, New York, and Denver, Colo.

Comment: The Denver & Salt Lake property has made substantial progress in building up its freight density during the past few years, and its train load is also now far heavier than in the earlier years. But the volume of business has not as yet reached a point where operations can be profitably carried on. Average freight rates have tended to decline as the traffic has been built up, and it is unlikely that the company will reach a profitable basis until the proposed extensions and improvements are completed.

Profit and Loss Account, year ended June 30, 1916: Unrefundable overcharges, $916; miscellaneous credits, $648; debit balance carried to balance sheet, $186,437; total, $188,001. Contra: Debit balance, June 30, 1915, $98,689; debit balance transferred from income, $83,912; loss on retired road and equipment, $3,100; miscellaneous debits, $2,300; total, $188,001.

Comment: While the Denver & Salt Lake reported a substantial improvement in its gross business during the year ended June 30, 1916, the operating costs were very high and the final balance was far below the fixed charge requirements. The company has defaulted on its first mortgage bonds and a plan of reorganization is under advisement. This plan involves the construction of a seventeen mile cut-off, which, it is claimed, will substantially reduce the operating costs and increase the earning power of the company; thus enabling it to cover its fixed charges without difficulty.

Comment: As the Denver & Salt Lake Railroad will doubtless soon undergo reorganization, the balance sheet as of June 30, 1916, has little current significance. It is clear that the fixed charges of the company are entirely too high, and a radical reduction will undoubtedly be necessary.

Note: The fixed charges include interest on bonds and on equipment notes, rentals, hire of equipment, etc. Prior to 1911 the interest on the first mortgage bonds of the company was charged to construction.

Profit and Loss Account, year ended June 30, 1916: Profit on road and equipment sold, $333; unrefundable overcharges, $278; miscellaneous credits, $9,235; debit balance carried to balance sheet, $2,416,440; total, $2,426,286. Contra: Debit balance at beginning of year, $1,838,230; debit balance transferred from income, $557,408; loss on retired road and equipment, $27,915; miscellaneous debits, $2,733; total, $2,426,286.

Comment: Although this company reported a slight improvement in its volume of business during 1916, the outlook is not very reassuring. A heavy deficit was reported after allowing for fixed charges. A very drastic reorganization will be necessary to give this company any future whatever.

Profit and Loss Account, year ended June 30, 1916: Credit balance at beginning of year, $273,760; credit balance transferred from income account, $58,447; miscellaneous credits, $3,400; total, $335,607. Contra: Delayed income debits, $1,168; credit balance at close of the year, $334,439; total, $335,607.

Comment: Gross and net revenues ranged at better figures in 1916 than for many years past, and income from other sources was nearly double that of the previous year. As a result, the balance carried forward for dividends reached an exceptionally heavy total. The credit of the property was substantially improved during the year.

Comment: There were no capital changes on the Green Bay & Western property during the year ended June 30, 1916. The property carries no bonded debt, and although as measured on the mileage basis, the stock and debenture capitalization is high, it will be noted that in recent years the company has shown an improving net income on net capitalization. At the present time the credit position of the company appears to be strong.

Note: There are no bonds on the property, and the position of the two debenture issues and the stock is as follows:

The net earnings, above taxes, rentals, hire of equipment items, etc., are to be applied as follows: (1) 2½% on Class A debentures (outstanding, $600,000); (2) 2½% on common stock (outstanding, $2,500,000); (3) Class A debentures and stock to share *pro rata* on surplus up to 2½% more per annum, making 5% in all; (4) further surplus earnings to be distributed to holders of Class B debentures (outstanding, $7,000,000). The payments are all to be non-cumulative. No mortgage is to be placed on the property without the consent of 75% of the holders of the stock. Class A debentures hold first preference as to assets, common stock holds second preference, and Class B debentures are entitled to any remaining balance. Both Class A and common have received 5% regularly since 1904. Class B received ½% in 1911 and in 1912; and 1¼% in 1913; ¾% in 1914; ¾% in 1915; ⅞% in 1916; 1% in 1917. Transfer Agents, Winthrop & Co., 40 Wall Street, New York. Debentures listed on New York Stock Exchange. Denomination of debentures, coupon, $1,000; of stock, $100 per share.

Note: "Average income available" is the average net income available per mile for interest charges, after deducting taxes for the nine years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

MISSOURI, KANSAS & TEXAS RAILWAY COMPANY

NOTE: The analysis is based on official documents of the Company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

History: Incorporated May 20, 1896, as a consolidation of the original Missouri, Kansas & Texas Ry. (formed in 1879), with the Missouri, Kansas & Eastern Ry., the Southwestern Mineral Ry., and the St. Louis & Kansas City Ry. Afterwards a number of other lines were acquired or merged, including the Kansas City & Pacific, the Missouri, Kansas & Northwestern, the Missouri, Kansas & Oklahoma, etc. In June, 1910, nearly all the capital stock of the Texas Central Ry. was acquired, and in 1911 the control of the Wichita Falls & Northwestern Ry. and the Wichita Falls & Southern Ry. were acquired; these properties now being directly merged as a part of the system. In October, 1912, the entire capital stock of the Beaumont & Great Northern R.R. was purchased and the property was afterwards directly merged, and its bonded debt assumed.

Location: The directly operated lines of the Missouri, Kansas & Texas Ry. consisted, June 30, 1916, of 3,865.04 miles, classified as follows (including trackage rights): M. K. & T. Ry. Co. lines, 1,744.38 miles; M. K. & T. Ry. of Texas lines, 1,293.78 miles; lines leased by M. K. & T. Ry. of Texas, 498.20 miles; Wichita Falls lines, 328.68 miles. Divided by States, the mileage was as follows: In Missouri, 542.58 miles; in Kansas, 494.24 miles; in Oklahoma, 1,036.27 miles; in Texas, 1,772.69 miles; in Louisiana, 19.29 miles. Population of above States (excepting Louisiana) in 1890, 6,403,637; in 1900, 8,024,201; in 1910, 10,543,981.

Reorganization: In October, 1915, the entire property with the exception of the Wichita Falls Lines went into the hands of receivers. A complete plan of reorganization, looking to the scaling down of fixed charges, was pending in January, 1917. It is understood that this plan contemplates the elimination of many of the branch lines of the system. Full details regarding this new plan will be furnished to our subscribers as soon as the same is published.

Comment: The Missouri, Kansas & Texas did not succeed in maintaining its freight density at the usual high level in 1916, and the passenger business also remained at about the figures of the previous year. The average freight train load, however, was much better than in earlier years and train mile earnings averaged well. As usual the freight tonnage of the company was well diversified.

Comment: As the Missouri, Kansas & Texas property is shortly to be reorganized, the old capitalization figures have not much current significance. The weakness of the property has been its heavy capitalization, and very high fixed charges. In the proposed reorganization these charges will have to be cut down very seriously, and a great deal of new capital supplied.

For Key to Bond Ratings, see pages 19 to 21.

Note: Although, as based on average earnings, the Factor of Safety on nearly all the issues of the Missouri, Kansas & Texas system is high, yet the recent decline in the company's credit and the present receivership point to a radical scaling down of the fixed charges. It has, therefore, been necessary to give relatively low ratings to even those issues which clearly cover property of great intrinsic worth. Many of the issues are now temporarily in default. THE MISSOURI PACIFIC RAILWAY COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: The original Missouri Pacific Railway Co. was incorporated Oct. 21, 1876, as successor to the Pacific Railroad Co. of Missouri, which was sold under foreclosure. On Aug. 11, 1880, the company was consolidated with the St. Louis & Lexington R.R., the Kansas City & Eastern R.R., the Lexington & Southern R.R., the St. Louis, Kansas & Arizona R.R., the Missouri River R.R., and the Leavenworth, Atchison & Northwestern R.R., under the name of "The Missouri Pacific Railway Co."

The present Missouri Pacific Railway Co. was incorporated Aug. 9, 1909, under the laws of Missouri; Kansas and Nebraska, as a consolidation of the Missouri Pacific Ry. Co., the Kansas & Colorado Pacific Ry., the Central Branch Ry., the Rooks County R.R., the Nevada & Minden Ry., the Kansas & Southwestern Ry., the Leroy & Caney Valley Air Line R.R. and other properties. The company owns practically the entire capital stock of the St. Louis, Iron Mountain & Southern Ry., and in 1911 acquired the entire stock of the Boonville, St. Louis & Southern Ry.

Location: The directly operated lines of the Missouri Pacific system on June 30, 1916, consisted of 7,484.31 miles, classified as follows: Owned by Missouri Pacific Ry., 3,780.55 miles; owned by St. Louis, Iron Mountain & Southern Ry., 3,181.62 miles; leased lines and trackage rights, 522.64 miles. Divided by States, the mileage owned in the system was as follows: Missouri, 1,447.59 miles; Kansas, 2,353.57 miles; Nebraska, 371.37 miles; Colorado, 152.12 miles; Illinois, 194.20 miles; Arkansas, 1,709.18 miles; Oklahoma, 161.62 miles; Louisiana, 572.52 miles. Population of States named in 1890, 11,719,339; in 1900, 14,096,280; in 1910, 17,502,105.

Reorganization and Receivership: In June, 1915, a comprehensive plan for the readjustment of the capitalization of the company was proposed, and in September receivers were appointed for the property. Full details regarding the plan of reorganization shortly to be adopted will be found on the following pages.

Management: Officers: B. F. Bush, Pres., Chairman and Receiver; J. R. Stephens, Asst. to Pres.; A. Robertson, Vice-Pres.; J. M. Johnson, Vice-Pres.; J. G. Drew, Vice-Pres.; O. B. Huntsman, Vice-Pres.; Finley J. Shepard, Vice-Pres.; H. L. Utter, Sec. and Treas. Directors: B. F. Bush, N. F. Brady, Newcomb Carlton, E. A. Faust, A. J. Hemphill, Wm. H. Lee, Cornelius Vanderbilt, C. M. Weld, W. H. Williams, E. L. Marston, R. Lancaster Williams, Finley J. Shepard, J. T. Milliken. Annual meeting, second Tuesday in March. Main Office, St. Louis Mo. Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1915. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

Above figures are those ended June 30, 1915. When reorganized, bond table will be rearranged in accordance with position of new issues. For current news, consult our Investors Service.

PERE MARQUETTE RAILROAD COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under laws of Michigan and Indiana, December 11, 1907, as a consolidation of the old Pere Marquette Railroad and the Pere Marquette Railroad of Indiana, the new company assuming all obligations of the old corporation. The first Pere Marquette R.R. (of Michigan) was itself a consolidation in November, 1899, of the Chicago & West Michigan Ry., the Detroit, Grand Rapids & Western R.R., and the Flint & Pere Marquette R.R. In July, 1904, the Cincinnati, Hamilton & Dayton Ry. acquired a majority of the common stock and nearly all of the preferred stock, and subsequently leased the property for 999 years. In December, 1905, however, the directors of the C., H. & D. Ry. voted to annul the lease and in January, 1906, the Court authorized the cancellation of the same. In the meantime the old company had gone into the hands of receivers, and in December, 1907, the new company took possession, as stated above.

Location: The directly operated lines of the Pere Marquette Ry. consisted on June 30, 1916, of 2,248.75 miles, embracing a system radiating mainly throughout the State of Michigan. Through the lease of the lines of the Lake Erie & Detroit River Ry., the system gains entrance into London, Ont. Population of State of Michigan in 1890, 2,093,889; in 1900, 2,420,982; in 1910, 2,810,173.

Note: In February, 1911, the Cincinnati, Hamilton & Dayton Ry. sold to J. P. Morgan & Co. its entire stock holdings in the Pere Marquette. Since then the interest on the 6% debenture bonds has been defaulted, but the coupons on the refunding 4% bonds of the company issued in 1905 (which were guaranteed by the C., H. & D. Ry.) were paid by the Bankers' Trust Co. to January, 1914, in order to protect the rights and liens under the mortgage.

Reorganization: In April, 1912, receivers were appointed for the property and under date of October 30, 1916, a plan of reorganization was proposed which has since been announced as operative. This plan provided for the following new securities:

First mortgage bonds, maturing July 1, 1956, to be issued in two series of which $21,976,000 are Series A 5s, and $8,479,000 are Series B 4s.

Prior preference 5% cumulative stock of which $11,200,000 is to be purchased by a syndicate.

Five per cent. cumulative preferred stock of which $12,429,000 is to be issued in exchange or partial exchange for existing securities.

Common stock to the amount of $45,046,000, of which $19,370,600 is to be issued in exchange or partial exchange for existing securities and $25,675,400 for purchase by syndicate.

The exchange of old securities is to be made on the following plan.

(1) Flint & Pere Marquette R.R. first 6s received for each $1,000 bond, $1,237 in Series A first 5s.

(2) Flint & Pere Marquette first 4s received for each $1,000 bond, $1,115 in Series A first 5s.

(3) Flint & Pere Marquette, Toledo Division first 5s, received for each $1,000 bond, $1,132 in Series A first 5s.

(4) Flint & Pere Marquette Port Huron Division first 5s received $764 in new preferred stock and $382, in new common stock, for each $1,000 bond.

(5) Flint & Pere Marquette first consol. 5s received $641 in Series A first 5s and $500 in Series B first 4s for each $1,000 bond.

(6) Chicago & West Michigan Railway first 5s received $1,136 in Series A first 5s.

(7) Chicago & North Michigan R.R. first 5s received $380 in preferred stock trust certificates and $761 in common stock trust certificates.

(8) Detroit, Grand Rapids & Western R.R. first consolidated 4s received for each $1,000 bond, $115 in Series A first 5s and $1,000 in Series B first 4s.

(9) Saginaw, Tuscola & Huron R.R. first 4s received for each $1,000 bond, $101 in Series A first 5s and $1,000 in Series B first 4s.

(10) Grand Rapids, Belding & Saginaw R.R. first 5s received for each $1,000 bond $1,150 in new common stock.

(11) Pere Marquette R.R. of Indiana first 4s received for each $1,000 bond $112 in Series A first 5s and $1,000 in Series B first 4s.

(12) Pere Marquette R.R. Consolidated 4s received for each $1,000 bond $1,104 in new preferred stock.

(13) Pere Marquette refunding 4s received for each $1,000 bond $1,104 in new common stock.

In addition to the above the unpaid coupons on Flint & Pere Marquette first 6s., Flint & Pere Marquette first 4s and Detroit Grand Rapids & Western R.R. consolidated 4s, due April 1, 1912 are provided for at par in Series A 5% first mortgage bonds. The coupon detached and maturing July 1, 1912, Jan. 1, 1913, July 1, 1913 and Jan. 1, 1914 on the refunding 4s are provided for in common stock at par.

The purchase committee offers on the terms described below to the depositors of divisional bonds, consolidated mortgage bonds, refunding bonds, collateral trust bonds, debentures, first preferred stock, second preferred stock, and common stock of the old company, the opportunity to acquire $11,200,000 5% prior preference stock, and $22,400,000 common stock at the following rate:

$1,000 par value prior preference stock and $2,000 parvalue common stock for the sum of $975 in cash.

Note: The fixed charges as shown above for 1915 and 1916 are the total payments made by the receivers of the old company, as the new company did not take possession of the property until after the close of the fiscal year. The new fixed charges (not including "contingent" charges) will be about $9,158,000 per annum.

Profit and Loss Account, year ended June 30, 1916: Debit balance, June 30, 1915, $2,696,558; building destroyed during year and not replaced, $9,751; tracks taken up during year and not replaced, $7,328; proportion of equipment retired and dismantled charged during year, $396,382; miscellaneous adjustments not affecting year's income (net), $2,926,478; total, $6,036,497. Contra: Credit balance transferred from income, $1,481,090; debit balance, June 30, 1916, $4,555,407; total, $6,036,497.

Comment: During the year ended June 30, 1916 the St. Louis & San Francisco reported great improvement in its gross and net revenues, and the final balance available for charges was higher than in any year since 1913. The fixed charges of the reorganized property are about $9,158,000 per annum, but the surplus reported was well in excess of the requirements for full interest on the new adjustment 6s and the new income 6s.

Diversified Investing

This subject is fully covered in a small volume entitled "*How to Invest Money Wisely*," by John Moody, which we have recently published. For many years Mr. Moody has made a careful study of this subject in connection with his work as an analyst and adviser for bankers, financial institutions and investors, both at home and abroad. These principles for wisely and intelligently diversifying investment capital have been adopted within the past few years by numerous institutions and several thousand individual investors with satisfaction and profit.

Note: Average income available, as shown above, is the annual average surplus of the past ten years, after deducting the *new* fixed charges. No. 1 is treated as a "joint claim" on income with the new St. Louis & San Francisco Income 6s.

1. All the $15,000,000 preferred stock of the Kansas City, Fort Scott & Memphis R.R. is owned by the St. L.-S. F. Ry. and deposited as collateral under an issue of certificates of equal amount. Under the reorganization plan, holders of these certificates were offered in exchange 75% in new prior lien 4s and 25% in adjustments 6s. In Nov., 1916, there were still outstanding $7,688,000 of these certificates in the hands of the public which had not been so exchanged. The certificates (which were an obligation of the St. L. & S. F. R.R.) are entitled to 4% per annum, and the principal will be payable on Oct. 1, 1921. The stock deposited is guaranteed 4% dividends under the lease, and all unexchanged certificates, while not an obligation of the new company, will continue to receive 4% during the life of the lease. Callable at par at any time.

2. Authorized, $200,000,000; outstanding, $7,000,000; par, $100. The amount outstanding is entitled to 6% non-cumulative dividends, if earned. Additional amounts may carry 7% dividends or less.

3. Authorized, $250,000,000; outstanding, $48,480,000; par, $100.

All of the stock is pledged under a voting trust for 5 years.

WESTERN MARYLAND RAILWAY COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated in December, 1909, as successor to the former Western Maryland Railroad, which was sold under foreclosure in November, 1909.

Location: Main line owned extends from Baltimore to Elkins, Durbin, and Belington, W. Va., with branches, embracing about 392.57 miles. Leases the Baltimore & Cumberland Valley Ry., the Baltimore & Cumberland Valley R.R., the Baltimore & Cumberland Valley Railroad Extension, the Baltimore & Harrisburg Ry., and the Washington & Franklin Ry., making 688.59 miles operated in all, including traffic rights. Also owns entire stock of Baltimore & Harrisburg Eastern Extension R.R., a majority of the stock of the Baltimore & Harrisburg Ry., the entire stock of the West Virginia Central & Pittsburgh Ry., and all the stock of the Maryland Smokeless Coal Co. The two last-named companies own about 135,000 acres of coal lands in West Virginia and Maryland. In January, 1910, the Western Maryland Ry. arranged to construct an extension of 83 miles to connect with the Pittsburgh & Lake Erie, and a 99-year traffic agreement was made with the latter road. This extension is now in full operation.

Reorganization: In December, 1916, a plan was submitted for the reorganization of the property. See full details on following pages.

Management: Officers: Carl R. Gray, Chairman and Pres.; Lawrence Greer, Vice-Pres.; L. F. Timmerman, Sec. and Treas. Directors: Edward D. Adams, H. E. Cooper, F. T. Gates, Geo. J. Gould, A. W. Krech, E. L. Marston, W. A. Wilbur, Lawrence Greer, Bertram Cutler, Carl R. Gray, L. F. Timmerman. Main Office, Continental Trust Bldg., Baltimore, Md. New York Office, 71 Broadway.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

Yard track and sidings on June 30, 1916, 175.42 miles.

Comment: During the year ended June 30, 1916, the Western Pacific reported a very substantial improvement in both passenger and freight density and its train load reached a much higher figure than ever before. It will be noted that the total tonnage carried equalled nearly 40% increase over 1915. As usual, a substantial amount of the business was high grade freight.

WHEELING & LAKE ERIE RAILWAY COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

History: Successor by reorganization in January, 1917, of the old Wheeling & Lake Erie Railroad. The old company acquired the Cleveland Belt & Terminal Railway, part of the old Cleveland, Canton & Southern Railroad, and the Zanesville terminals of the latter. Owns the entire stocks of the Toledo Belt Ry. and the Canton & Wooster R.R., and a majority of the stock of the Pittsburgh, Wheeling & Lake Erie Coal Co. The company also owns a majority of the stock of the Pittsburgh, Lisbon & Western R.R., 27 miles, which is separately operated. Also controls Sugar Creek & Northern R.R., 22 miles.

Reorganization: The old company went into the hands of receivers on June 8, 1908, and on Sept. 20, 1916, a plan of reorganization was announced which has since become operative. This plan involved the issue of the following new securities:

(1) $50,000,000 refunding mortgage bonds, of which $11,697,000 issued for the purpose of the plan in exchange for first consolidated 4s; $3,303,000 are to be issued to acquire divisional bonds, the balance being reserved for expenses and other improvements.

(2) $11,882,600 prior lien stock to be issued for the purposes of the plan.

(3) $10,344,958 non-cumulative preferred stock.

(4) $33,641,300 common stock.

The distribution of the new securities was made on the following plan:

(1) Wheeling & Lake Erie R.R. first consolidated 4s received for each $1,000 bond, 100% in new refunding 4½s.

(2) Wheeling & Lake Erie 3-year notes received for each $1,000 note, 100% in new prior lien stock.

(3) Wheeling & Lake Erie R.R. first preferred stock received on payment of $27 per share, 27% in new preferred stock and 100% in new common stock.

(4) Wheeling & Lake Erie second preferred stock received on payment of an assessment of $27 per share, 27% in new preferred stock and 90% in new common stock.

(5) Wheeling & Lake Erie common stock received on payment of an assessment of $27 per share, 27% in new preferred stock and 87½% in new common stock.

All unsecured claims, estimated at $720,500, received 50% in new preferred stock and 50% in new common stock.

WABASH-PITTSBURG TERMINAL RAILWAY COMPANY

(PITTSBURG & WEST VIRGINIA RY., *Successor.*)

History: Incorporated May 7, 1904, under laws of Pennsylvania, West Virginia, and Ohio, as part of a general plan of the Gould interests for developing a transcontinental railroad system from the Atlantic to the Pacific. For carrying out this plan the Western Maryland Railway was acquired, and also the Wheeling & Lake Erie system. Shortly after incorporation the company acquired control of the Pittsburg Terminal Railroad and Coal Company through the acquisition of the entire stock of the latter. The latter had a controlling interest in the West Side Belt Railroad. The West Side Belt Railroad owned 22.46 miles extending from Pittsburg southward to Clairton, Pa., with a short branch to Banksville.

When the Wabash-Pittsburg Terminal Railway was organized, the entire $10,000,000 of stock of the company was acquired in the interest of the Wabash Railroad, and the latter also acquired $6,600,000 of the first mortgage bonds of the Terminal Company.

The Wabash Railroad acquired control of the Wheeling & Lake Erie Railroad through the Wabash-Pittsburg Terminal Railway. The latter under the original agreement secured 51.73% of the entire capital stock of the Wheeling & Lake Erie, and still owns $847,500 out of $4,986,000 first preferred, $4,423,800 out of $11,993,500 second preferred, and $11,870,000 out of $20,000,000 common stock.

Receivership: On May 29, 1908, the Wabash-Pittsburg Terminal Railway was placed in the hands of receivers. The company defaulted on the payment of the principal and interest of a $300,000 note made in 1906 to the Wabash Railroad and also defaulted June 1st on the interest due on the first mortgage 4% bonds. The property was sold under foreclosure Aug. 28, 1916, and the plan of reorganization outlined below has since been declared operative.

Plan of Reorganization: The following plan for the reorganization of the property was announced in June, 1915, and has since become effective:

A new company has been formed under name of Pittsburgh & West Virginia Ry., with an authorized capitalization of $9,100,000 6% preferred stock, non-cumulative, but to become cumulative on January 1, 1921, and $30,500,000 common stock. The new company assumes underlying real estate mortgages amounting to $795,868; the first mortgage of the Pittsburgh Terminal R.R. and Coal Co., $3,922,000, and the first mortgage of the West Side Belt R.R., $383,000.

Exchange of Securities: Holders of $30,236,000 first mortgage 5s were asked to pay an assessment of $300 per bond, and surrender their holdings, for which each receives 30% in new preferred stock, 100% in new common stock, 2.8% in Wheeling & Lake Erie first preferred, 21% in Wheeling & Lake Erie second preferred and 39% in Wheeling & Lake Erie common stock. Holders of the second mortgage bonds were allowed to subscribe for that proportion of the new securities not taken by the first mortgage bondholders, the amounts and assessments to be apportioned ratably. The old stockholders received nothing.

To all holders of full paid certificates of deposit for bonds (i. e., bearing notation showing payment under plan of $300 in respect of each $1,000 of bonds represented thereby) who desire the same and shall present their certificates of deposit to the Central Trust Co. of N. Y. for appropriate stamping the reorganization committee has determined forthwith to distribute "Certificates of Interest," which shall specify the amount of stock of the Wheeling company deliverable to the holders thereof, if and when the reorganization of the terminal company shall be consummated under the terminal reorganization plan in accordance with the provisions and subject to the conditions to be set forth in said Certificates of Interest. These certificates will be in three series, viz.: Series A, specifying $28 par value first preferred stock of the Wheeling Co.; Series B, $210 second preferred stock of Wheeling Co.; Series C, $390 common stock of Wheeling Co.

Holders of Certificates of Deposit stamped to indicate the delivery against the same of Certificates of Interest will not thereafter be entitled to receive under the terminal reorganization plan stock of the Wheeling Co. or trust certificates therefor and all such rights shall pass to the holders of Certificates of Interest delivered against Certificates of Deposit so stamped.

The managers of the syndicate provided for in the Wheeling reorganization plan agree substantially as follows: (1) Upon the delivery to the managers at the Central Trust Co., 54 Wall Street, on or before Dec. 8, 1916 of said Certificates of Interest accompanied by payment of $27 for each share of stock of the Wheeling Co. specified in the respective Certificates of Interest so delivered, the managers will issue full-paid receipts entitling the holders thereof

to receive, when issued, stock of the new company on the basis mentioned in the Wheeling reorganization plan as follows: 6% non-cumulative preferred (second) stock of the new (Wheeling) company equal at par to such payment, and, in addition (*a*) $100 common stock of the new company for each $100 first preferred stock; (*b*) $90 common stock of the new (Wheeling) company for each $100 second preferred stock of the Wheeling company; (*c*) $87.50 common stock for each $100 common stock of Wheeling company. (2) That instead of requiring payment in full on or before Dec. 8, 1916 of $27 per share to accept the payment on or before Dec. 8, 1916 of $12 on each share of stock and the balance of $15 on or before six months from Dec. 8, 1916, with interest to date of payment of 6%.

Note: For details regarding old Trackage and Traffic Contracts, and relations with the old Wabash Railroad and the Wheeling & Lake Erie Railroad, see Moody's Analyses of Railroads for 1915.

Management: OFFICERS OF THE NEW PITTSBURG & WEST VIRGINIA RY.: Park J. Alexander, Pres.; W. G. Lowe, Vice-Pres.; F. J. Brunner, Sec.; G. V. Early, Treas. GENERAL OFFICES, Wabash Bldg., Pittsburgh, Pa.

ALGOMA CENTRAL & HUDSON BAY RAILWAY

Origin: Incorporated under Canadian laws, August 11, 1899, as the Algoma Central Ry. Name changed to above May 23, 1901. The line of road was projected from Sault Ste. Marie to Franz, Ont., on the line of the Canadian Pacific Ry., and thence northerly to connect with the Grand Trunk Pacific Ry. at Hearst, with various branches. The Canadian Government granted a subsidy of $6,400 per mile for the line from Sault Ste. Marie to the Canadian Pacific main line, 225 miles; and a similar subsidy from Franz to Hearst. The Province of Ontario has given a land grant of about 1,665,000 acres, and, on completion of the line to the Grand Trunk Pacific Ry., a further grant of 500,000 acres.

Location: Line of road in operation, Sault Ste. Marie to Franz, 195 miles; Hawk Junc. to Michipicoten, Ont., 26 miles, and branches, 111 miles. Total operated, 332 miles. Equipment owned: 32 locomotives and 1,366 passenger, freight and service cars. The company owns the entire capital stock of the Algoma Central Terminal Co., Ltd., and is itself controlled by the Lake Superior Corporation, statement of which see in "Moody's Analyses of Public Utilities and Industrials."

Readjustment Plan: In September, 1916, the following plan was put in effect, as authorized by Act of Canadian Parliament. (1) A bondholders' committee to exercise the voting power upon the common stock and also for the conversion of the 2d M. bonds of the Railway into income bonds until the principal and interest of all the 1st M. bonds shall have been paid in full. (2) The interest on the Railway bonds from June 1, 1914, and interest and sinking fund on the Terminals bonds to be paid only if the joint net earnings available for the purpose permit (except as indicated below), but the interest to be cumulative up to 5%, with right to 6% per annum, if earned, in the following priority: (*a*) Terminals bonds for current and all prior years 3% p. a., said payment, however, to be a fixed obligation for the periods from Aug. 1, 1914 to Aug. 1, 1915, payable forthwith, and also in each year after Aug. 1, 1921. (*b*) Both issues pari passu as though one issue, 2%. (*c*) Railway bonds, 3%. (*d*) Any arrears up to 5% on either issue. (*e*) Terminals sinking fund. (*f*) Railway bonds, 1% and Terminals bonds, ½ of 1%. While the guaranty of the Lake Superior Corporation will remain, the committee alone can enforce it. (3) Reducing existing pref. stock of the Railway, $5,000,000 outstanding, by 60% (i.e., each share to $40 par value), and creating a new class of $3,000,000 5% non-cum. pref. shares of $40 par value, equal to 60% of present issue, having similar rights, to be issued as fully paid to the bondholders' committee in consideration of the Railway and Terminals bondholders consenting to this scheme, the stock to be distributed 75% to the Railway bondholders and 25% to the Terminals bondholders pari passu. In Dec., 1916, the receiver was discharged.

CANADIAN NORTHERN RAILWAY SYSTEM

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

History: Incorporated under Canadian laws in 1899, being a consolidation of the Winnipeg Great Northern Ry. and the Lake Manitoba Ry. and Canal Co. The company then subleased, in 1901, from the Manitoba Provincial Government the lines owned in that Province by the Northern Pacific & Manitoba Ry., with an option to purchase at any time. In 1911, the Edmonton, Yukon & Pacific Ry. was absorbed. Many other lines have been acquired or constructed by the Canadian Northern interests, but are not directly under the control of this company.

Consolidation: Prior to the autumn of 1915 the chief lines of the Canadian Northern Ry. were located in Western Canada, west of Port Arthur. Numerous lines had been acquired and constructed through allied companies in the East and were also under construction on the British Columbia coast. In 1914 the Parliament of Canada passed an Act designating the whole of the properties, including certain constituent and subsidiary companies owning lines of railway terminals and other facilities in Canada, as the Canadian Northern Ry. System, and authorizing the guarantee of securities of the Canadian Northern Ry. to the extent of $45,000,000, issued under a general mortgage (ranking after all mortgages then authorized), in aid of the construction, completion and betterment of the system. As part of the terms upon which the Government guarantee was authorized, the Statute required that there should be transferred to the Government of the Dominion of Canada $33,000,000 par value of the Canadian Northern Railway Company's capital stock, in addition to the $7,000,000 which was issued under the authority of the Statute of 1913. The shareholders furnished this amount and the Government is now a shareholder to the extent of $40,000,000 out of a total of $100,000,000 of stock. The construction of these lines having been completed, toward the end of 1915 a through service was established between the East and the British Columbia coast. Heretofore traffic originating on lines east of Port Arthur and destined to points in the West, had to be given to an intermediate carrier for movement to Port Arthur. In the same way the haul on traffic originating on Western Lines, destined to points east of Port Arthur, was lost at Port Arthur. Now, however, that connections are completed and regular transcontinental service established, the company is reaping all the advantages of the long haul.

Location: The Canadian Northern Ry. System has now in operation 9,296 miles, extending from Quebec, Montreal and Toronto to Vancouver and Victoria, B. C., with many branches and intersecting lines in the provinces of Quebec, Ontario, Manitoba, Saskatchewan and Alberta. It has in effect practically three main line divisions beginning west of Winnipeg, viz.: (1) the Transcontinental Division, passing through Edmonton, on the way to British Columbia; (2) Northern Division, extending to Prince Albert; (3) the Southern Division, passing through Brandon and Regina, and reaching Calgary by way of the famous Goose Lake country, rich in its production of grain, cattle and domestic coal.

Mileage of the system is located as follows: In Province of Nova Scotia, 369.9 miles; Province of Quebec, 626.8 miles; Province of Ontario, 2,219.1 miles; Province of Manitoba, 1.989.1 miles; Province of Saskatchewan, 2,178.1 miles; Province of Alberta, 1,181.2 miles; Province of British Columbia, 516.4 miles; State of Minnesota, 215.4.

Land Grants and Subsidies: The company was given a land grant in aid of the construction of certain lines in Manitoba and the territories, being at the rate of 6,500 acres per mile in Manitoba and 12,800 acres per mile in the territories.

Cash subsidies were also paid by the Dominion Government in aid of the Ontario division at rate of $6,400 per mile for 212 miles, and $3,200 per mile for 55 miles. A further cash subsidy of $4,000 per mile was paid by the Ontario Government on 268 miles.

On June 30, 1915, lands owned were valued at $20,074,380, represented by the following acreage in the different Provinces: In Manitoba and Saskatchewan, 857,720 acres; in Ontario, 2,000,000 acres; in Quebec, 402,860 acres. During the fiscal year 1916, 19,443 acres of land were sold at an average price of $16.37 per acre as compared with $15.53 per acre in 1915. Agreements for the sale of 4,850 acres were cancelled leaving 843.127 acres in the Prairie Provinces still available for sale. Land Grant bonds, of the issue of 1909, amounting to $272,533, were retired, leaving $2,217,740 outstanding on June 30, 1916.

Ocean Steamship Services: An agreement of importance in the development of the system's freight and passenger traffic, was made during the year 1916 with the Cunard Steamship Company. Under the terms of the arrangement, the Cunard Company has taken over the Atlantic steamers controlled by the Canadian Northern Railway, and a close working alliance is in effect between the two companies, the various Canadian services of the Cunard line and the Canadian Northern having become, in effect, a single transportation unit between Europe and Canada. Steamship services on the Pacific Ocean are also in contemplation. The entire stock of the Canadian Northern Express Co. is also owned.

Freight Tonnage: No uniform classification of freight traffic is furnished. The chief item of freight tonnage carried by this system is lumber. For the year ended June 30, 1916, there were 1,809,656,000 feet of lumber transported. Grain carried represented 131,978,809 bushels, and coal, 1,741,031 tons; miscellaneous, 3,722,085 tons. In 1915, there was carried 1,801,691,000 feet lumber, 58,575,520 bushels grain, 1,653,952 tons coal, and 3,009,903 tons of miscellaneous freight.

Note: Average income per mile available for charges for the two years ended June 30, 1916, before deducting taxes, was $1,123, while current interest requirements per mile as above on entire bonded debt of consolidated system were $1,588. As the company is charging a portion of interest on several issues to construction account, no attempt has been made in the above table to show any factor of safety figures. In examining the ratings, the importance of government guarantees should be considered as this company in its program of expansion during the past few years has drawn heavily on the government for assistance. The direct guarantee of certain issues by the Dominion Government and various provinces and the general influence of this factor on the entire system should be borne in mind, though growth in earnings should become a factor of increasing importance with the future development of Canada.

37. Auth. and outstanding, $25,000,000. Dated May 6, 1910; due May 6, 1930; interest May and Nov. 2 (declared April and Oct. 10, out of earnings of the half-years ending June 30 and Dec. 31), at rate not exceeding 5% per annum only to the extent that net earnings are sufficient after paying fixed charges. Limited to $10,000 per mile. By the terms of the Statute of the Dominion Legislature authorizing the guarantee of $45,000,000 debenture stock, passed June 9, 1914, no further issue can be made under this trust deed. Callable at par on May 6, 1920, or at any time thereafter on six months' notice. Convertible into common stock at par on any Jan. and July 1, from Jan. 1, 1916 to Jan. 1, 1922 (extended from 1919), both inclusive on 60 days' notice. A general charge on the property of the company (other than land and money subsidies), ranking after No. 31, and after all securities hereafter created, having priority over No. 31, and after all charges now or hereafter created for securing any securities guaranteed by the Dominion or any of the Provinces of Canada. Listed on Toronto and London Stock Exchanges. In 1915, paid 2½% on this issue; none in 1916.

Capital Stock: Auth., $125,000,000; outstanding, $100,000,000; par, $100. The $25,000,000 unissued is reserved for conversion of income debenture stock. Of amount issued, $40,000,000 is owned by Government of Dominion of Canada and $60,000,000 by Mackenzie, Mann & Co., Ltd.

CANADIAN PACIFIC RAILWAY COMPANY

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under laws of Dominion of Canada, Feb. 17, 1881. Main line opened from Montreal to Vancouver on May 26, 1887. At time of incorporation the company received a cash subsidy of $25,000,000 from the Dominion of Canada, and also a land grant of 26,710,400 acres. Subsequently, it received further grants (see "Lands" below).

Location: The directly operated lines of the company which were included in the traffic returns for the year ended June 30, 1916, amounted to 12,993.6 miles. This mileage embraces the main line from Montreal to Vancouver, 2,899.1 miles; branches, auxiliaries and leased lines directly operated, 10,094.5 miles. Operating otherwise, 383.6 miles. The mileage is classified as follows: Eastern Division, including main lines, branches, leased lines, etc., chiefly in Province of Quebec, 1,609 miles; Ontario Division, including main lines, branches, leased lines, etc., in operation and under construction in Province of Ontario, 1,509 miles; Lake Superior Division, including main line from Chalk River to Port Arthur and branches; the Lake Timiskaming Colonization Ry. and the Interprovincial & James' Bay Ry., 1,110.2 miles; Atlantic Division, including New Brunswick Railway and other leased lines, chiefly in Province of New Brunswick and in Maine, etc., 783.5 miles; Manitoba Division, including main line from Port Arthur to Broadview with branches, and also leased lines in the Province of Manitoba, 2,463.8 miles; Saskatchewan Division, including main line from Broadview to Swift Current with branches, and also the Manitoba & Northwestern Ry. with its branches, 2,150.1 miles; Alberta Division, including main line from Swift Current to Field, and also branches, and Crows Nest Pass Line, Kootenay Central Ry. (leased), and Calgary & Edmonton Ry. leased), 2,530.3 miles; British Columbia Division, Field to Vancouver, branches and leased lines, 1,221.3 miles.

Separately Operated Controlled Lines: In addition to its main system, the Canadian Pacific Railway controls the following: Minneapolis, St. Paul & Sault Ste. Marie Railway, 3,044.28 miles; Wisconsin Central Railway, 1,120.25 miles; Duluth, South Shore & Atlantic Ry., 627.7 miles; Mineral Range R.R., 127 miles; Dominion Atlantic Ry., 293.71 miles; Quebec Central Ry., 258.44 miles, and a number of smaller lines. The company also holds a joint interest with the New York Central, Canada Southern and Michigan Central in the Toronto, Hamilton & Buffalo Ry. (see map for location of all lines, and separate statements of independently operated lines). Also now controls Alberta Ry. & Irrigation Co.

Lands: At its incorporation the company received land grants from the Dominion Government of 26,710,400 acres of which 6,793,014 were disposed of to the Government in 1886, leaving 19,917,386 acres. Other purchases were made in 1911 and 1912, leaving on hand at the end of the fiscal year 1916, 7,870,056 acres. This includes amounts held through the Manitoba Southwestern, the Great North West Central, the Columbia & Kootenay, the British Columbia Southern, Esquimalt & Nanaimo Northern Colonization Ry., and the Columbia & Western grants.

During the past fiscal year the company sold in all 390,715 acres, from which it realized $6,128,108, or an average of $15.68 per acre. Included in this area were 8,046 acres of irrigated land, which brought $54.67 per acre, so that the average price of the balance was $14.86 per acre. Estimating the value of the unsold lands at $10 per acre (about two-thirds of the price recently received), the total asset value is in excess of $78,000,000.

Special Investment Fund: In Dec., 1913, a new trust fund was created, with the Royal Trust Co. of Montreal as trustee, to embrace the amounts due on deferred payments of lands and from securities in which proceeds of land sales had been invested, amounting to $56,545,471.

Steamship Lines: In addition to its railway lines, the Canadian Pacific controls lines of steamers between Vancouver and China and Japan; to Australia and New Zealand, to Hawaii, to San Francisco, to Alaska, and also to points on the Great Lakes. It also controls trans-Atlantic lines. These lines are now operated separately by the Canadian Pacific Ocean Services, Ltd., organized in 1915 to take over the steamship lines. The entire capital stock is owned by the Canadian Pacific R.R., and was given in payment for the property transferred.

Note Certificates: In March, 1914, a 6% note issue was created, amounting to $52,000,000, to cover financial requirements, and to be secured by the Special Investment Fund referred to above. These notes are dated Mar. 2, 1914, and will mature Mar. 2, 1924, but are callable from time to time, as the Trust Fund may warrant. They were offered to stockholders until Feb. 2, 1914, at 80% of their par value, payable as follows: 32% on Feb. 2; 48% on Mar. 2, 1914; or, if desired, 48% on April 2, plus interest at 6% for one month on 60% of the face value of the certificates.

Management: OFFICERS: Rt. Hon. Lord Shaughnessy, K.C.V.O., Pres. and Chairman; I. G. Ogden, Vice-Pres.; G. M. Bosworth, Vice-Pres.; Geo. Bury, Vice-Pres.; E. W. Beatty, Vice-Pres. and Gen. Counsel; Grant Hall, Vice-Pres.; E. Alexander, Sec.; H. E. Suckling, Treas. DIRECTORS: Richard B. Angus, Sir Edmund B. Osler, M.P., W. D. Matthews, C. R. Hosmer, Sir Thomas Skinner, Robert Mackay, James Dunsmuir, Rt. Hon. Lord Shaughnessy, K.C.V.O., Sir Herbert S. Holt, Augustus M. Nanton, Geo. Bury, J. K. L. Ross, F. S. Meighen, E. W. Beatty. Annual meeting, first Wednesday in October. GENERAL OFFICE, Montreal Canada. TRANSFER AGENTS, Hebdin, Bog & Molineux, 64 Wall Street, New York.

Classification of Freight Tonnage: The company does not classify its freight tonnage on the uniform plan adopted by American railroads, but presents its record in a form not susceptible of the average method adopted in this book. The total revenue freight in 1916 amounted to 29,276,872 tons; 21,490,596 tons in 1915; 27,801,217 tons in 1914; 29,471,814 tons in 1913; 25,940,238 tons in 1912; 22,636,214 tons for 1911, and 20,551,368 tons in 1910. The tonnage is well diversified, although the road naturally is dependent to large degree on grain, lumber and mining products for its prosperity. High-grade freight, however, is tending to become steadily more important. In 1916, the manufactured articles amounted to 7,960,723 tons, or nearly a fourth of the total.

Yard tracks and sidings, 3,617 miles.

Equipment as shown above covers all lines directly operated, including leased lines. In addition, the company has marine equipment as follows: Ocean steamships, Atlantic service, 12; Pacific service, 4; Pacific coast service, 26; Upper Lakes service, 5; British Columbia Lake and River service, 24; Bay of Fundy service, 3; ferry service, 2.

Comment: The volume of freight business underwent a very heavy increase on the Canadian Pacific lines during the year ended June 30, 1916. Both freight density and the train load reached the highest figures in the record. While the passenger and freight rates ranged lower than usual, yet the train mile earnings improved substantially.

* Deficit.

Note: The gross earnings as shown above include the income from the operation of rail lines only; total net income includes net returns from steamship lines, interest and dividends on stocks and bonds owned, income from land sales, etc. Dividends of 3% per annum are charged directly against this special income account. The company is, under its charter, exempt from taxes. Fixed charges, which include interest, rentals, and 4% interest on consolidated debenture stock, were $10,876,352 in 1913; $10,227,311 in 1914; $10,446,510 in 1915; $10,306,196 in 1916.

Margin of safety is the proportion of surplus remaining after deducting fixed charges. For example, in 1916, the amount available for charges (per mile) was $4,571; fixed charges consumed $951 per mile, or 21%, leaving $3,620. a "margin of safety" of 79%.

Comment: The capitalization changes on the Canadian Pacific Railway, for the year ended June 30, 1916, were not important. As measured on the mileage basis, the capitalization actually decreased. The road is really not heavily capitalized, notwithstanding the large amount of stock outstanding. It will be noted that during the past ten years the net income on net capital has generally ranged in the neighborhood of 10% or over.

Note: Canadian Pacific also pays 6% dividends on $2,000,000 ordinary stock of Ontario & Quebec Ry. as part of rental.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits andaverages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

Note: There are also outstanding, $400,000 equipment trusts, due annually to Dec., 1918.

Investment Position of Bond Issues: All of the bond issues of the Canadian Pacific system stand on a high investment plane. As the foregoing records indicate, each issue enjoys a very high factor of safety, and even the average available income for the past ten years exceeds many times the total fixed-charge requirement of the present time.

REFERENCE NOTES ON STOCK ISSUES

1. Auth. (not over 50% of common outstanding); par, $100 or £20; now outstanding, $80,681,921. Has preference to 4% non-cumulative dividends, and equal voting power with common. Listed on Montreal, Toronto, London and New York Stock Exchanges.

2. Auth., $335,000,000; outstanding, $260,000,000; par $100 or £20. Full voting rights. Listed on Montreal, Toronto, New York, London and Amsterdam Stock Exchanges. Transfer Agents: Bank of Montreal and its agencies in New York and London.

Note: Dividends paid on common: 1901 and 1902, 5%; 1903, 5½%; 1904, 1905 and 1906, 6%; 1907 to 1909, 7%; 1910, 7½%; 1911, 9½%; 1912 to date, 10% per annum. Of latter amount 7% is paid from railroad earnings and 3% from "special income."

Investment Position of Stocks: The Canadian Pacific preferred stock is so well protected as to be practically in the position of a bond, and is therefore justified in selling permanently on a high investment plane. The common stock, while necessarily more speculative, promises to maintain permanently a high value, and, judged by the earning power of the past few years, should be considered a liberal dividend payer; at least until the land holdings of the company become greatly reduced.

THE DULUTH, SOUTH SHORE & ATLANTIC RAILWAY COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under laws of Michigan, March 7, 1887, succeeding the Sault Ste. Marie & Marquette, the Mackinac & Marquette, the Wisconsin, Sault Ste. Comment: Although the Duluth, South Shore & Atlantic reported a heavy increase in its volume of business in 1916, the company nevertheless failed to earn its fixed charges, and added still further to its deficit. Not once during the past decade has the company succeeded in earning sufficient surplus to cover its fixed charge requirements.

For Key to Bond Ratings, see page 19.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

MINNEAPOLIS, ST. PAUL & SAULT STE. MARIE RAILWAY COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

History: Successor by consolidation on June 11, 1888, of the Minneapolis, Sault Ste. Marie & Atlantic Ry., the Minneapolis & St. Croix Ry., the Minneapolis & Pacific Ry., and the Aberdeen, Bismarck & Northwestern Ry. In 1909, control of the Wisconsin Central Railway was acquired, through the purchase of 51% of the common stock, and the road being leased for ninety-nine years. It is now operated as the Chicago Division of the general system. Controls the Central Terminal Ry. of Illinois and has a one-twelfth interest in the Belt Railway Co. of Chicago.

Location: Directly operated lines consisted, on June 30, 1916, of 3,169.17 miles, and with the Wisconsin Central, 4,228.37 miles, classified as follows: Lines owned east of Minneapolis, 709.92 miles; west of Minneapolis, 2,422.66 miles; short spurs, 6.68 miles; trackage rights, 29.91 miles. The Wisconsin Central lines are known as the Chicago Division of the system, but separate operating figures are furnished (which see). Main system operates chiefly in Wisconsin. Minnesota and North Dakota. Population of these States in 1890, 3,171,425; in 1900, 4,139,582; in 1910, 4,968,624.

Control: Canadian Pacific Railway Company owns $12,723,500 out of $25,208,800 common, and $6,361,800 out of $12,603,400 preferred stock. The lines make connection with the Canadian Pacific at Portal, N. D., and at Winnipeg, and furnish an entrance for the system into St. Paul, Minneapolis, Duluth and Chicago.

Yard tracks and sidings, 591.89 miles. Equipment trust obligations on Jan. 1, 1917, amounted to $5,832,000.

Comment: A very substantial recovery occurred in the volume of business of this company during the year ended June 30, 1916. Freight density was nearly as heavy as in 1913, while the train load reached a new high average. Although freight and passenger rates tended to decline, the train mile earnings were far higher than ever before.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

WISCONSIN CENTRAL RAILWAY COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated December 27, 1897, and on July 13, 1899, succeeded to the properties of the Wisconsin Central Company as a result of reorganization of the latter. May 1, 1901, the Marshfield & Southeastern R.R. was purchased. In 1909, an extension to Duluth and to Superior was opened for traffic.

Location: Directly operated lines of the Wisconsin Central on June 30, 1916, embraced 1,127.46 miles. including the following: Chicago, Ill., to Withrow, Minn., 423.68 miles; Spencer to Ashland, Wis., 145.88 miles; Owen to Superior, Wis., 153.42 miles; Neenah to Manitowoc, 36.56 miles; Stevens Point to Portage, 70.75 miles; Marshfield to Nekoosa and Greenwood, 55.03 miles, etc. Population of Wisconsin in 1890, 1,686,880; in 1900, 2,069,042; in 1910, 2,333,860.

Control: In January, 1909, 51% of the common stock of this company was acquired by the Minneapolis, St. Paul & Sault Ste. Marie Ry. (Canadian Pacific system), and the road was leased for ninety-nine years from April 1, 1909. By the terms of this lease the Wisconsin Central preferred stock was exchanged, share for share, for "leased line certificates" of the Minn., St. Paul & S. Marie Ry., 4% per annum being guaranteed on the latter. The certificates are secured by deposit of the Wisconsin Central preferred stock. The company is now operated by the lessee as the "Chicago Division."

Management: Officers: E. Pennington, Pres.; A. H. Bright, Vice-Pres.; C. F. Clement, Treas.; G. W. Webster, Sec. Directors: E. Pennington, J. S. Pillsbury, C. E. Wales, A. H. Bright, W. L. Martin, C. This subject is fully covered in a small volume entitled "*How to Invest Money Wisely*," by John Moody, which we have recently published. For many years Mr. Moody has made a careful study of this subject in connection with his work as an analyst and advisor for bankers, financial institutions and investors, both at home and abroad. These principles for wisely and intelligently diversifying investment capital have been adopted within the past few years by numerous institutions and several thousand individual investors with satisfaction and profit.

Note: The funded debt was increased in 1913, 1914 and 1915 by the sale of additional refunding 4s. In 1915, it was further increased by the issue of $1,000,000 3-year notes.

Comment: There was a moderate increase in the funded debt during the year, but no change in the outstanding capital stock. The road is rather heavily capitalized and in recent years the net income on net capital has shown no tendency toward increase.

CUBA RAILROAD COMPANY

Note: The analysis is based on official documents of the company, including its annual reports of the past ten years.
For Definitions and Key to Ratings, see pages 19-26.

Origin: Incorporated under New Jersey laws, May 1, 1902, to construct and operate railroads in the Island of Cuba. The first section was put in operation in 1905, and other sections in the following years. The government of Cuba granted the company a subsidy of $6,000 per kilometer for 247.88 kilometers, and $5,000 per kilometer for 30.99 kilometers.

In Dec., 1915, purchased entire capital stock of the Camaguey & Nuevitas Railroad, carrying with it a concession for the construction, under subsidy, of a railroad from Camaguey to Santa Cruz del Sur, a distance of 98½ kilometers. In order to finance this purchase the Cuba Railroad Company issued $3,000,000 3-year 5 per cent. Gold Notes, secured by the stock of the acquired company.

Location: The operated lines of the company on June 30, 1916, consisted of 619.1 miles, including main line from Santa Clara to Santiago, and branches to San Luis, Manzanillo, Holguin, etc. Yard tracks and sidings, 93 miles.

In addition to above mileage, company has 39 miles under construction known as the Fomento-Tunedad-Casilda Branch.

Control: The Cuba Company owns all the $10,000,000 outstanding common stock of the Cuba Railroad Company, and $1,000 of the preferred stock. See statement of Cuba Company under its own heading.

Management: Officers: Geo. H. Whigham, Pres.; D. A. Galdos, Vice-Pres. and Gen. Mgr.; Arthur Coppell, Vice-Pres.; Herbert C. Lakin, Sec.; R. E. Jones, Treas. Directors: Henry W. Bull, Arthur Coppell, Edwd. J. Berwind, Howard Mansfield, Geo. H. Whigham, Robert Fleming, R. B. Van Horne. Annual meeting, third Wednesday in September. New York Office, 52 William Street.

THE GRAND TRUNK RAILWAY COMPANY OF CANADA

NOTE: The analysis is based on official documents of the company, including its annual reports of the past ten years. For Definitions and Key to Ratings, see pages 19-26.

History: Incorporated in 1882 as a consolidation of the Grand Trunk Railway and the Great Western Railway. Acquired the Midland Railway of Canada in 1884, the Northern Railway of Canada in 1888, and the Northern & Pacific Junction Railway in 1892. Also controls by stock ownership the Detroit, Grand Haven & Milwaukee, the Grand Trunk Western, the Michigan Air Line, the Toledo, Saginaw & Muskegon, the Central Vermont, and the Canada Atlantic railroad companies. The Cincinnati, Saginaw & Mackinaw R.R. is operated under lease and the Chicago, Detroit & Canada Grand Trunk Ry. under agreement. A majority of the stock of the Grand Trunk Pacific Railway (constructing extensive western extension) is owned. Full details of these separately operated properties are given under their own headings. The entire system forms a network of lines covering the entire Dominion of Canada, and when all extensions are completed will embrace over 10,000 miles of road.

Location: The directly operated system embraces 4,015 miles of lines, operating from Quebec and Portland, Me., and New London, Conn., westerly through Ontario and Michigan, making connection with various other lines and entering Toronto, Detroit, Grand Haven, Chicago, and many other points. Extensive steamer lines are operated on Lakes Huron, Michigan, and Superior. The entire system, including separately operated lines, was 4,788 miles on Dec. 31, 1915. In 1914, the Canada Atlantic Railway was directly merged and is now operated as part of the main system.

Note: For comparative purposes, the income figures are reduced to dollars in Table B, but the income account is given in "pounds." The two six months' statements of the company, ending Dec. 31 and June 30, respectively, were combined to obtain the figures for the year ended Dec. 31, 1914.

As the usual balance sheet, modeled on the plan exhibited by American roads, is not furnished by this company, the comparative capitalization figures are omitted from this analysis. The various bond and stock issues are all described and rated under Table D. The company has changed its fiscal year to Dec. 31st and therefore it is no longer possible to present the accounts under date of June 30.

Note: "Average income available" is the average net income per mile available for interest charges, after deducting taxes, for the ten years ending Dec. 31, 1915. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

Note: "Average income available" is the average net income per mile available for interest charges after deducting taxes, for the ten years ending June 30, 1916. "Interest requirement" is the current requirement. The ratings are based not only on the statistical exhibits and averages, but other considerations are given due weight, such as the general financial condition of the property, character of its business, relative position of the issue, etc. For full explanation, see Introduction. For Key to Bond Ratings, see pages 19 to 21.

NATIONAL RAILWAYS OF MEXICO

(Ferrocarriles Nacionales de Mexico.)

NOTE: The analysis is based on official documents of the company, including its annual reports.

Note: *Owing to the disturbed political conditions in Mexico, the system was only partially operated during* 1915 *and* 1916, *and no complete report has been published since* 1914.

Origin: Chartered in City of Mexico in March, 1908, to acquire and consolidate the properties of the old National Railroad of Mexico and the Mexican Central Railway, Ltd., and to acquire, construct, and operate other railroad properties. The company is controlled by the Mexican Government, which owns practically all the common stock.

Location: At the present time the company owns or controls over 7,000 miles of road, extending to all parts of Mexico. Includes in its mileage controlled, are the lines of the Mexican International R.R. Co., acquired in 1910 from the Southern Pacific Co.; the company has also acquired a majority interest in the stock of the Pan-American R.R. and the Vera Cruz and Isthmus R.R. Further mileage is under construction, and it owns, jointly with the St. Louis, Brownsville & Mexico Ry., the stock of the Brownsville-Matamoras Bridge Co., the latter company owning the concessions granted by the United States and Mexican governments to construct a bridge over the Rio Grande River, which is now open for traffic. Population of Mexico in 1910, 13,607,259.

Confiscated: On August 16, 1914, all the lines of the company were confiscated by the Constitutionalist Administration, thus making the financial statement for the fiscal year 1915 a report of only six weeks' actual operation by the company. With a recognized government now established in Mexico the company will claim indemnification for use of the properties, etc., as specified in the laws of the country, on the basis of the average earnings for the five years prior to their being taken over, plus 10% of those same earnings.

TEN YEAR PRICE RANGE OF RAILROAD STOCKS AND BONDS

NOTE: The following table includes the highest and lowest recorded quotations of the different issues of stocks and bonds which are rated in the volume for the entire period from January 1, 1907, to January 1, 1917. The highest and lowest selling price in each year is shown. Where no record of sales could be obtained, the bid price on the last day of the closing year is given. Due to the closing of the Stock Exchanges, however, in the last six months of 1914, most of the bid and asked prices for 1914 are those of July 31, 1914, there being no available quotations for any later date.

Practically all the securities included in this record are listed on one or more of the leading Stock Exchanges. The New York Stock Exchange quotations have been given preference where there has been a difference in recorded quotations on two exchanges.

To conform to the ruling of the New York Stock Exchange, adopted in 1915, stocks of other than $100 par value, formerly quoted on a percentage basis are now shown at dollars per share.

A number of standard railroad stocks and bonds are not listed on any exchange. Some of these are, however, quoted in various outside markets, and, wherever possible, these quotations are furnished in this list.
